Dear Mr Weisberg,

How are you? I would like very mucho that you answer to some of my questions. I would be very grateful to you.

1. I have seen in summer '89 a documentary about the assass. of JFK (produced by the BBC, "Who really killed JFK") in wich was shown a picture of a man with a police uniform who seems to be shooting in the direction of JFK. It is certainly the man that a witness called Gordon Arnold saw on 22 nov 63. The photo was public since 1963, but nobody (I think) never taugh to enlarge it with a computer (see photo #1). Have you ever see the enlargement?

2. In a book called "Reasonable Doubt" there is a picture of a man (Jean Souetre). See the details on picture #2. Did you know it? Could you try to get an interview with the man (if he is still alive). He is now working in a casino in France. For more details, see author Gary Shaw.

3. Do you believe the story of the man we can see in the Zapruder Film who opens an umbrella and who came (I am not sure) before the House Select committee in 70's. He said that he did it because his father did it too during a parade of Hitler in 1940? Very strange.

4. According to the author of "Reasonnable doubt", the fingerprints found on the carabine of Oswald were put there by someone of the police. What do you think of it?

5. What was doing Ray Truly with a carabine in Texas Book Depository?

6. Jim Garrisson has just wrote a new book about the assass. Do you still believe his story?

7. Can you send me photocopies of your book "Photograph Withewash" - I would pay you.

8. What do you think of the idea of hypnotising some of the witnesses of the assass. of JFK and of policeman Tippit. We could get the truth or maybe some very interesting details. It is not so silly after all. Maybe you could lead the operation.

9. Do you have the adress of Mark Lane?

I have so many other questions but I do not want to bother you any longer.

I hope you will help me. Thank you.

Jean Souetre, in photo above on left with circle around his head, was a known French terrorist who was once imprisoned after an assassination attempt against French President Charles de Gaulle. Souetre, or someone using his name, was in Dallas on the day of the JFK assassination. U.S. officials quietly expelled that person from the country, for reasons still unclear. In the picture opposite right, Oswald is seen with a man he identified to his wife only as "Alfred from Cuba." The photograph was found among Oswald's effects. There is an obvious similarity between Souetre and the man called "Alfred from Cuba."
